

Call of Poster Abstracts - International Conference on Medicine and Science in Athletics (ICMSA)

We are inviting poster abstract submissions from, but not limited to, policy makers, researchers (earlier career through to established investigators), clinicians and practitioners (e.g. physicians, pharmacists, allied health professionals, managers, coaches, bio-mechanists etc.). The intent is to be inclusive, rather than restrictive, to ensure the interdisciplinary nature of professionals involved in the delivery and practice of Medicine and Science in Athletics are showcased. We welcome abstract submissions detailing established and emerging best-practice and evidence-informed delivery of Medicine and Science in Athletics, to support athlete health and performance.

From the submitted and accepted poster abstracts, 5 will be chosen on merit (final decision is the exclusive right of the ICMSA poster committee) during the poster abstract consideration process. The authors of these 5 short-listed abstracts will be requested to deliver three slides, in three minutes (3 in 3), between 07:00 – 07:45 on Day 2 of ICMSA. From this group of 5 abstracts, 3 will be further shortlisted on merit (final decision is the exclusive right of the ICMSA poster committee) and the presenters will again present their 3 in 3 presentations between 18:30 – 19:00 on Day 2 of ICMSA. Timings during ICMSA are subject to change. Any prizes (which are not confirmed or guaranteed) will be announced in due course, provisionally the poster ranked 1st, from the 3 in 3 final, will receive a USD 500 prize.

Poster abstracts will be submitted online to postersmsa@aspetar.com no later than 09:00 Arabia Standard Time (AST) Thursday 28th March. Full instructions and rules regarding poster abstract submission can be found on the ICMSA website in due course (<https://tinyurl.com/y8gqrtgy>). Authors of accepted ICMSA poster abstracts will be notified via email on Friday 5th April 2019.
